

ROLE-08 — Financial Analyst Role Description

v1 | 2026-03-15 | Finance | Role

1. Role Purpose 1.1 [M] The Financial Analyst role exists to provide budgeting, forecasting, and financial-control oversight that keeps NovaCart's spending aligned with company targets.
 2. Core Responsibilities 2.1 [M] Prepare monthly budget-to-actual variance reports for department leads. 2.2 [M] Review and approve vendor invoices per the thresholds defined in SOP-05 Section 1.1, escalating high-value invoices per SOP-05 Section 2.1. 2.3 [O] Maintain a rolling 12-month cash-flow forecast model for Finance leadership, updated as time allows.
 3. Reporting Line and Stakeholders 3.1 [M] Financial Analysts report to the Finance Director and work closely with Accounts Payable Clerks on invoice escalations and with department leads on budget planning.
 4. Performance Expectations 4.1 [M] Forecast accuracy (variance within 5% of actuals) and on-time delivery of monthly reports are the primary success metrics. 4.2 [O] Analysts are encouraged to propose process improvements to the invoice-approval workflow during quarterly retrospectives.
 5. Required Competencies 5.1 [M] Advanced spreadsheet modeling and familiarity with the company's financial planning software. 5.2 [M] Working knowledge of GAAP-aligned expense classification.
