

ROLE-10 — Warehouse Operations Coordinator Role Description

v1 | 2026-03-15 | Operations | Role

1. Role Purpose 1.1 [M] The Warehouse Operations Coordinator role exists to keep fulfillment operations running safely and on schedule at client warehouse sites.
2. Core Responsibilities 2.1 [M] Coordinate daily shipment schedules between NovaCart's software platform and client fulfillment center staff. 2.2 [M] Serve as the on-site point of contact for safety incidents, per the reporting process in SOP-04 Section 2.1. 2.3 [O] Lead a brief safety huddle at the start of each shift when staffing allows.
3. Reporting Line and Stakeholders 3.1 [M] Coordinators report to the Operations Manager and interface daily with client warehouse supervisors and the engineering support contact for platform issues.
4. Performance Expectations 4.1 [M] On-time shipment coordination rate and safety-incident response time are the primary success metrics for this role.
5. Required Competencies 5.1 [M] Comfort working on a warehouse floor and basic familiarity with fulfillment scheduling software. 5.2 [O] Forklift certification is a plus but not required at hire; it can be completed within the first 90 days.
